LAKEWOOD, OHIO

DAHLIA UNWIN'S DWARF HYBRIDS. These bedding Hybrids are the outcome of 10 years' hybridisation and selection, and must not be confused with the ordinary single Coltness Hybrids. The original parents were Coltness Gem and, on the other side, the finest varieties of the Charm or Miniature Paeony Flowered Type. Messrs. UNWIN'S object has been the combination of the best qualities of both types, the wonderful dwarf habit and freedom of Coltness Gem with the dainty semi-double form and the wide range of exquisite colorings of the Charms. This object has been achieved—the hybrids are early, blooming in four months from the time of sowing, and they embrace a wide and most charming color range. In the main they are semi-double, require no stakes, may be planted 18 to 20 inches apart, and average between 18 and 24 inches in height. Their freedom of flowering is remarkable. Given exactly the same treatment, they are much easier to raise than Asters or Stocks. Sown in March they commence blooming at the end of June or beginning of July and continue until the first severe frost. Their popularity is assured; all who have seen them have been very impressed. PER PACKET ----- \$1.00

URSINIA ANETHOIDES NEW HYBRIDS. We predict a wonderful future for the Jewels of the Veldt (Ursinias). The plants make bushes 2 ft. through and carry a hundred or more fully expanded flowers at one time. The foliage is light and feathery and the flowers are carried singly well above the leaves, on thin wiry stems of sufficient length for decorative or vase work. The blooms last splendidly in a cut state. The petals of all are of a delightful rich orange tone, but it is the central coloring surrounding the disc that shows the wonderful variation. The width of the rings vary from $\frac{1}{8}$ to $\frac{3}{4}$ inch, and tone from ruby red to dark purple, spangled with the distinctive jewel-like dots. From seeds sown outdoors in April, plants commence to flower in June, and continue until September. Height 1 to 1½ ft. PER PACKET ----- 75c

ASTER DOUBLE LILIPUT. A small flowered intensely double Aster, which is admirably suitable for pot culture. Of recent years it has become very popular for market work on account of the neat symmetrical form of the flowers; the plants are of ideal habit and are about one foot in height.

At last year's R. H. S. Autumn Show they created quite a sensation and again this year (1931) at Southport (England) attracted very considerable attention.

These Liliput Asters come practically 100% true to color and we feel that our customers should give them a place in their gardens. We offer them in the following colors: CRIMSON, DARK BLUE, PURE WHITE, ROSE, SCARLET, WHITE WITH ROSE CENTER, WHITE WITH BLUE CENTER. Price for above collection ----- \$2.00

CHRYSANTHEMUM SEGETUM ELDORADO. Although not a Novelty, this very welcome addition to the annual Chrysanthemums has not hitherto been offered for sale generally. Its flowers are canary yellow, many shades deeper than the existing varieties, and their beauty is enhanced by a very dark disc. A variety we recommend all our customers to grow. PER PACKET ----- 75c

LINARIA CANON WANT. A hardy perennial pale pink Linaria. 2½ to 3 ft. in height, coming perfectly true from seed. PER PACKET ----- 75c

MECONOPSIS BAILEYII. This beautiful blue perennial Poppy grows 2-3 feet high, with broad, sea-green leaves, and large blooms of a glorius sky-blue color. It is hardy, and has obtained from the R. H. S. a First Class Certificate and an Award of Merit. Prefers a moist and half shaded position. PER PACKET ----- 75c

FELICIA BERGERIANA. Tufted grass-like foliage, from which are thrown masses of small blue star-shaped flowers. A really pretty annual of unique beauty.
PER PACKET ----- \$1.00

VENIDIUM FASTUOSUM. Immense golden yellow flowers, with brown band encircling dark disc. A wonderful annual. PER PACKET ----- 75c

TAGETES "GUINEA GOLD". This is a distinct type of Tagetes, of graceful pyramidal habit, growing 2½ to 3 ft. high, and producing 30 to 40 flowers to the plant, 2 to 2½ inches across of a brilliant shade of orange, flushed with gold. This variety produces no single flowers, but practically 100% semi-double and double. "GUINEA GOLD" is recommended both for "under glass" culture (grown cool) as well as for outdoors. Seed limited.
PACKET \$1.00; ¼ oz. \$2.50.

Greenhouse Plants.

Wm. E. Attwood Co., Inc.

AGAPANTHUS UMBELLATUS. Strong 6 inch pots. \$12.00 per dozen.

AMARYLLIS GIANT AMERICAN HYBRIDS. Flowers of enormous size, with full, rounded, broad petals, 10 inches in diameter, are not unusual and 5 to 6 flowers to a stem, frequently two stems being pushed to the bulb. In color there are selfs and stripes, ranging from the purest white ground color with rose or red markings to rich orange-scarlet, cherry, crimson and maroon. Strong flowering bulbs which we can supply in mixture only. \$12.00 per dozen; \$90.00 per 100.

BOUGAINVILLEA Crimson Lake. The flowers are like all other Bougainvilleas, perhaps a trifle larger, but in coloring none compare with it in richness and brilliancy. On first opening a brilliant crimson-lake, retaining this color for 3 or 4 weeks, after which they gradually pass to a crimson. 4 inch pots, \$7.00 per dozen.

CAMELLIA JAPONICA. We offer a nice lot of thrifty plants 12 to 15 inches high in 6 inch pots in soft double pink. \$4.00 each.

CLERODENDRON Balfouri.

3 inch pots \$3.00 per dozen; \$20.00 per 100.

4 inch pots \$6.00 per dozen; \$40.00 per 100.

CLIVIA (Imantophyllum) Miniata. A very select strain. 5 inch pots \$2.50; 6 inch pots \$4.00 each.

ADIANTUM GLORIOSUM (Glory Fern). This is the most beautiful of the Maidenhairs, and which has displaced Adiantum Farleyense; it is just as handsome and while Farleyense was a very difficult variety to grow, the Glory Fern is as easily handled as any of the ordinary Adiantums.

2¼ inch pots \$5.00 per dozen; \$40.00 per 100.

3 inch pots 10.00 per dozen; 90.00 per 100.

ASPLENIUM NIDUS AVIS (Bird's Nest Fern). A splendid healthy, clean lot of plants. 3½ inch pots \$1.50 each; 5 inch pots \$3.00 each; Specimen plants in 7 inch pots, \$4.50 each.

PLATYCERIUM ALCICORNE MAJOR (Stag-Horn Fern). One of the prettiest and easiest growing varieties of the interesting Stag Horn Ferns, a splendid plant for the conservatory.

Strong 3 inch plants, \$2.00 each.

Strong 5 inch plants, \$5.00 each.

TRAINED BALL-SHAPED ENGLISH IVIES. These ball-shaped Ivies are meeting with considerable favor. We offer 6 inch pots, balls 10 to 12 inches in diameter at \$3.00 each.

OLEA FRAGRANS (Sweet Olive). An old favorite greenhouse shrub succeeding admirably as a house plant, producing small creamy white flowers of the most exquisite fragrance, continues to bloom almost the entire winter. 4 inch pots \$1.50 each.

WE sincerely thank our customers and friends for their patronage in the past, and in the future we shall earnestly strive to continue holding the goodwill already established by adhering to our policy of **THE BEST** in everything we sell.

In offering you this list, we are fully acquainted with everything offered herein, and unhesitatingly recommend the varieties of seeds and plants listed as being of the best. At the same time we shall be very glad to secure for our customers any varieties not catalogued.

We assure new customers and old, that all orders, large and small, will be given prompt attention at all times.

EARLY OFFERING: Your cooperation is invited by placing orders early. This will help us to facilitate delivery at the proper time.

RUSH ORDERS: May be telephoned or telegraphed at our expense.

BUSINESS TERMS: Prices quoted in this catalog are net, 30 days. All goods are offered, subject to being unsold on receipt of order, and we reserve the right to change prices, if current conditions require it.

ALL GOODS travel at purchaser's risk after they are in the hands of any common carrier.

ORDERS from unknown parties must be accompanied by cash or satisfactory references.

CLAIMS must be made on receipt of goods, otherwise they can not be considered.

PACKING will be charged extra at cost.

NON-WARRANTY: Wm. E. Attwood Co. gives no warranty, express or implied, as to descriptions, quality, productiveness or any other matter of any seeds, bulbs, or plants they sell, and will not be responsible for the crop. If the customer does not accept the goods on the above terms, they must be returned at once, and the money will be refunded or proper credit given. *We exercise, however, the greatest care in filling our orders, and use only the highest quality goods possible as it is our constant aim to give our customers fullest satisfaction.*

**Specialties and Novelties in
FLOWER SEEDS
VEGETABLE SEEDS
SHRUBS and PLANTS
FLOWER SEEDS**

ASTERS

	1/8 oz.	Pkt.
AURORA. This aster is a real innovation. The center of the flower is bright yellow, with an outer circle of delicate blue, forming a very striking contrast. The plants are of robust growth, averaging two feet in height.....	\$1.00
GIANTS OF CALIFORNIA (Single). This wonderful aster was developed out of the Double Giants of California and was offered for the first time last year. The flowers are large, measuring 3 to 4 inches across—with 18-24 inch stems. The petal has a slight twist, which adds to its beauty. We believe this new single type of aster is destined to become very popular. Offered in the following colors:		
White	\$1.50	.75
Rose	1.50	.75
Light Blue	1.50	.75
Purple	1.50	.75
Lilac	1.50	.75
Delicate Flesh	1.50	.75

CALENDULA

	Pkt.
RADIO. This unique new flower is a recent introduction from Europe. The true Radio form is a medium sized orange flower with quilled or comet petals, curled and twisted, borne on medium length stems. Equally fine for the garden or for forcing.....	\$0.75

COSMOS

	Pkt.
HOLLYWOOD STAR. For those looking for odd and striking flowers, we recommend this novelty. The flowers are pink, red and white, borne on long stems—makes a fine cut flower. The center of the flower resembles a scabiosa from which project eight petals set well apart in a star-like formation.....	\$0.50

DAHLIA

	6 Pkts.	Pkt.
COLTNESS HYBRIDS IMPROVED. The colouring of these selected hybrids is very comprehensive, ranging from deep crimson to white, and embracing delicate pinks and roses, as well as yellows, mauves and various shades of scarlets and purples. The habit of the plant is also improved, being dwarfer and more compact, so that we have no doubt that our selection will increase the favor with which this charming class of Dahlias is already regarded.....	\$4.00	\$0.75

GODETIA

	Pkt.
DWARF DOUBLE AZALEA-FLOWERED. Last season we recommended Dwarf Double Azalea-flowered Godetia mixed for growing in pots in greenhouses. We understand this has met with favor, and have added this year a new variety that we recommend.	
Cornelia. Delicate salmon.....	\$0.75

FLOWER SEEDS—Continued

HELIANTHUS

MAROON PRINCE. This Helianthus is a dwarf growing strain. It is a true maroon in color, single, and is unquestionably the best red sunflower on the market today\$0.50

Pkt.

LARKSPUR

LA FRANCE. The unique feature which differentiates it from older types of Larkspur is its large number of long stemmed laterals from the crown stem. La France is very floriferous, the large, well formed, double flowers being well placed on the long stems. It is a vigorous grower and much more resistant to mildew than the older stock flowered varieties. Flowers are a pleasing salmon pink. We consider it a real achievement in the flower world\$1.00 \$0.50

1/8 oz. Pkt.

LOS ANGELES. This variety was developed in response to the demand for a Larkspur of the same growing habit as La France, but with a richer color. The color of Los Angeles is a rich salmon ground, overlaid with a brilliant and pleasing rose. The type of growth is similar to La France, but the foliage of Los Angeles is a much darker green, making the large double flowers stand out more prominently75

MECONOPSIS BAILEYI

(One of the finest introductions of recent years.)

It is a beautiful blue, perennial poppy—well furnished with broad sea green leaves and bearing freely large 4-petaled blooms of a glorious sky blue color—the effect of which is enhanced by a central zone of golden yellow anthers.....\$3.50 \$0.75

5 Pkts. Pkt.

SALVIA

SPLENDENS HARBINGER. Plants raised from seed sown at the end of February commence to produce in profusion their long spikes of dazzling bright scarlet flowers early in June, and maintain a blaze of color until the frosts. The plants are dwarf and compact in habit and the strong dark foliage forms an effective foil to the vivid hue of the flowers.....\$3.50 \$0.75

5 Pkts. Pkt.

VEGETABLE AND FARM SEEDS

BEEF

CHELTENHAM GREEN LEAVED. Specially selected stock. This variety has very dark red flesh, free from the earthy taste which spoils some varieties. We consider this one of the best globe beets\$1.75 \$0.50

Oz. 1/4 oz.

SQUASH

THE ZUCCHINI. This variety is undoubtedly the best of the Italian marrow squashes—growing much shorter and more uniform in size than other types—and is better adapted for cooking. The American public is just learning of their delicious qualities and their superiority over the other well known summer squashes. Skin is dark green....\$0.60 \$0.25

Oz. Pkt.

MANGEL WURZEL

Kirche's Pedigreed Ideal

This Mangel combines the advantages of **Heavy Yield, Highest Sugar Content, Highest Digestible Dry Matter, Easiest Harvesting, Best Keeping Quality and Fitness for Silage.** We have kept constant check on this variety for the past four years and our records show it is superior to any Mangel now on the market. Our customers who consider "**Kirche's Ideal Mangel**" the outstanding variety and who have grown it two years or more with great success include **Ralph W. Theime, Wabeno, Wis.; C. E. Ely, Mgr. Beardsley Farms, Garrettsville, Ohio; Nate Hill, Mgr. Halfred Farms, Chagrin Falls, Ohio; John McQueen, Supt. Glengarry Farms, Chagrin Falls, Ohio; J. H. Skinner, Dean, School of Agriculture, Purdue University, Indiana,** and many others.

Kirche's Ideal Mangel is cylindrical in shape, flattened at top and bottom, grows two-thirds to three-quarters above ground. The single top root makes easy and clean harvesting. It has a yellow skin and pure white, crisp, sweet interior tissue. An interesting four-page pamphlet dealing with the cultural and growing habits of this mangel will be gladly sent on request.

The seed is imported by us from Germany in original sealed bags and sells for

Per lb. \$1.25
10 lbs. or over, per lb. 1.00

NURSERY STOCK SPECIALTIES

This stock herewith offered is **extra fine specimen plants** grown by a Lakewood Nurseryman with a reputation for producing unusual and well grown nursery products. Packing at cost. Truck delivery within 50 mile radius of Cleveland at cost.

GERMAN PEAT MOSS IN BALES

Imported from Northern Germany

It comes packed in standard size bales measuring 20x 22x40 inches or approximately 12 cu. ft. **Especially recommended for mulching around Trees, Evergreens, Shrubs, etc., in the preparation of new Lawns, the re-pairing of old ones—and for propagating.**

We carry a stock in our warehouse for immediate delivery, and also offer a special price inducement for advance orders of 10 bales or over, delivered direct from carlot arrivals at our station—Rocky River, Ohio.

We will be pleased to quote you on your requirements.

FINE GRASS SEEDS IN QUANTITY

Prices on these seeds open, quotation sent upon request.

FANCY KENTUCKY BLUE GRASS. Our stock of Blue Grass is extra fine. Sow 75 to 85 lbs. per acre on lawns.

CANADIAN BLUE GRASS. Makes an ideal pasture for cattle. Very good for sowing on embankments. Sow same amount as Kentucky Blue.

CRESTED DOGTAIL. Fine for both pasture and lawn. Sow 80 to 100 lbs. to acre.

CHEWING'S NEW ZEALAND FESCUE. Especially recommended for putting green and lawns.

FINE LEAVED FESCUE. Especially valuable for dry soils. Sow 70 to 85 lbs. per acre.

RED FESCUE. Valuable for putting greens, also for sowing on sandy soil and in shaded places.

GRASSES—Continued

ORCHARD GRASS. For early pasture this is very desirable, also for sowing in shady places.

ENGLISH OR PERENNIAL RYE GRASS. This makes the quickest return in growth of any grass. Is deep rooted and quickly established. 100 to 120 lbs. per acre.

ITALIAN RYE GRASS. Very desirable for pasture, comes to maturity the first season. 100 lbs. per acre.

WOOD MEADOW. The best grass for sowing under trees where a lawn is desired. 75 to 100 lbs. per acre.

WHITE DUTCH CLOVER. Splendid for sowing among grass on lawns and other places where a thick, quick growth is desired.

FARM AND FIELD SEEDS

Subject to Market Prices

BEANS

Sow 1 bushel to acre in drills.

SOJA. Mammoth yellow.

BUCKWHEAT

Sow 1 bushel to the acre.

JAPANESE. Earliest and very productive. (Bushel 48 lbs.)

FIELD CORN

8 quarts will sow 1 acre in hills.

3 bushels will sow one acre broadcast.

Prices will be cheerfully quoted on Flint or Dent varieties wanted. Also on Ensilage and Fodder Corn.

MILLET

Sow 1 bushel to the acre.

HUNGARIAN. A fine summer forage crop.

GOLDEN MILLET. A very heavy cropper.

JAPANESE. Tall grower.

MANGEL SEED

See Specialty Page.

PEAS

Sow 2-3 bushels in drills to the acre.

CANADA FIELD. Valuable for cattle feeding.

RAPE

Sow 10 lbs. to the acre broadcast.

Sow 4 lbs. to the acre in drills.

DWARF ESSEX. Its fattening properties are said to be better than Clover.

RYE

Sow 2 bushels to the acre.

SPRING. An excellent catch crop.

MAMMOTH WINTER. Heavy heading. Sow in August and September.

VETCHES or TARES

Sow 2 bushels to the acre.

SPRING. Valuable for green manuring. Produces good crops on poor, sandy soils.

WINTER. Valuable for green manuring. Produces good crops on poor, sandy soils.

WHEAT (Spring)

Sow 2 bushels to the acre.

MARQUIS. Beardless.

WHEAT (Winter)

BEST VARIETIES.

OATS

Our **BUMPER CROP** strain is a splendid crop producing oat. The straw is strong and tall growing, the grain plump and full. Those who have tried it ask for the same strain every year.

	Per Bu.
1 to 100 bushels.....	\$2.00
100 bushels or more.....	1.75

CLOVERS

Prices subject to change.

- ALFALFA** or **LUCERNE** (*Medicago Sativa*). Valuable as a forage crop, produces enormous crops. Northern grown.
- ALFALFA GRIMM**. Hardier and more productive than the ordinary Alfalfa. Thrives well on hard pan soils, and is better suited to wet soils than other kinds.
- ALSIKE CLOVER** (*Trifolium Hybridum*). Very hardy, resists cold and wet.
- CRIMSON** or **SCARLET CLOVER** (*Trifolium Incarnatum*). An annual variety of rapid growth valuable as a cover crop or for green manuring. Sow 20 lbs. to the acre.
- MEDIUM RED CLOVER** (*Trifolium Pratense*). The common red Clover and the most valuable.
- MAMMOTH RED CLOVER** or **PEA VINE**. Grows taller and lasts longer than the Medium Red.
- WHITE CLOVER** (*Trifolium repens*). The best variety for lawn mixtures.
- SWEET CLOVER, BOKHARA** (*Melilotus Alba*). Used on poor, light soils when other Clovers do not take well.

DAHLIAS

The Finest Varieties in All Classes.

We are distributors for W. H. Waite, originator of Jersey Beauty and many other fine Dahlias and an acknowledged leader in the Dahlia field. A catalogue devoted to Dahlias will be sent immediately upon request.

DICENTRA SPECTABILIS

Bleeding Heart

	Each	Doz.	100
This plant is a universal garden favorite with its delicate foliage and its long pendulous branches of heart shaped flowers. The Bleeding Heart does not object to a little shade, and likes to be left alone without being disturbed after it is once planted. Strong 2-year-old roots.....			
	\$1.00	\$7.50	\$60.00

GLOXINIAS

Charming summer flowering bulb for the conservatory or window garden.

	Doz.	100
FINE MIXTURE. Blue, pink, red, purple and white are colors included in this mixture.....	\$4.00	\$30.00

HYACINTHUS CANDICANS

Summer Hyacinth

This is a splendid summer flowering bulb, contrasting well with the Gladiolus. The stalks are four to five feet in height and bear many white, bell-shaped flowers. They are most effective when planted in small clumps of from five to ten bulbs. The bulbs should be planted about eight inches apart and five inches deep.

	Doz.	100
LARGE BULBS	\$2.00	\$14.00

MONTBRETIAS

Montbretias are delicate miniatures of gladiolus. They are fast gaining popularity as cut flowers and make charming arrangements in bowls and vases. The stems are slender and wiry, the flowers dainty in texture and coloring. They are a splendid addition to the perennial border where they should be planted in large clumps.

	Doz.	100
FINE MIXED COLORS	\$0.90	\$6.00

TUBEROSES

Plant tuberose in the garden in May in rich soil in a sunny location and they will bloom in September. If early flowers are wanted, bulbs should be started in a hotbed in March or April and set out in the garden after danger of frost is past in late May or June. Mammoth or Jumbo bulbs sure to bloom.

	Doz.	100
DWARF DOUBLE PEARL	\$1.25	\$8.50

ZEPHYRANTHES

Zephyr Flower or Fairy Lily

	Doz.	100
Beautiful, dwarf bulbous plant, very effective for massing, fine for pot culture.....	\$1.75	\$12.00

LILY-OF-THE-VALLEY

This charming flower is so well known that it needs no description. It does well in partial shade and rather moist soil. We have large clumps, which, if planted early, will bloom this May.

	Each	Doz.	100
CLUMPS	\$0.50	\$5.00	\$40.00

HARDY GARDEN LILIES

You will want some of these stately lilies of rare fragrance in your perennial garden. Most lilies will do well in partial shade.

	Each	Doz.	100
AURATUM. Chinese Gold Band, Lily, a wide band of yellow through each white petal. Very large flowers, tall growing.....	\$0.50	\$5.00	\$38.00
CANADENSE. Bell shaped blossoms in rich orange-red. Ten to fifteen blooms on a stalk25	2.00	12.00
KRAMERI. Delicate flesh pink, blooms late	.60	6.00	45.00
REGALE. Recently introduced from China and proving to be one of our best lilies. Flowers a large white trumpet washed with pink and yellow at the base.....	.75	8.00	60.00
SPECIOSUM ALBUM. Pure white, waxy, reflexed petals. Blooms August and September50	5.00	38.00
SPECIOSUM HENRYI. Large, orange-yellow flowers75	7.50	60.00
SPECIOSUM RUBRUM. Bright pink, reflexed petals50	5.00	38.00
TIGRINIUM. Tiger Lily, deep yellow with brown spots30	3.00	23.00

LILY-OF-THE-VALLEY PIPS

(Cold Storage)

Will bloom in 21 days after planting.

We make a specialty of Lily-of-the-Valley: the grade we handle is the very best that can be procured. Place your orders now, for present and future deliveries.

We are in a position to supply all kinds of rooted cuttings, such as Chrysanthemums, Carnations, etc., the stock being extra fine quality. Prices quoted on application.

NURSERY STOCK

Thru our connections with several first-class Nurseries we can supply **EXTRA FINE STOCK** of **SHRUBS—TREES—EVERGREENS** and **PERENNIALS** at the regular market prices and assure satisfaction.

For those who desire **SPECIMEN STOCK** the Attwood Co. will personally select same to conform with the customer's needs and guarantee satisfaction.

With our contacts we are in a position to secure the unusual in plant life and will be most pleased to secure for our customers uncommon and very scarce Horticultural Subjects.

HYBRID TEA or EVERBLOOMING ROSES

Extra strong field-grown plants, \$1 each, \$10 per dozen.

April delivery.

- BETTY.** Extra large flowers, full and fragrant, of a peculiar shade of coppery rose, overspread with golden yellow.
- CHATEAU DE CLOS VOUGEOT.** An indispensable Rose in any garden by reason of its deep, soft, velvety scarlet flowers of the utmost richness and most notable fragrance.
- COLUMBIA.** The lively pink buds and blooms do not fade as they mature. Nearly thornless stems, freely produced on strong plants.
- DUCHESS OF WELLINGTON.** Vigorous and free-flowering Rose. Its buds are slim and elegant, saffron-yellow, and opening to a loose and informal flower of great sweetness.
- FRANCIS SCOTT KEY.** Its pleasing crimson buds quickly open into a very double flower of immense size.
- GENERAL MacARTHUR.** Large, full, and well-shaped flowers of velvety scarlet.
- GEORGE C. WAUD.** Fine and fragrant globular flowers of bright and different red-crimson on a vigorous plant that persists in blooming all summer.
- GRUSS AN TEPLITZ.** The one Rose that blooms all summer and autumn, defying drought and hot sun. Its glowing crimson flowers are in clusters.
- HARRY KIRK.** Probably the most dependable in its color, which is the much-desired clear yellow.
- H. V. MACHIN.** Very large flowers of the much-admired scarlet-crimson color, on sturdy and productive plants.
- JONKHEER J. L. MOCK.** Cherry-red and silvery pink in an immense bud and flower that looks like an intensified La France.
- KILLARNEY QUEEN.** Remarkable for its very long and lovely pink buds, freely produced on a vigorous plant.
- LADY ALICE STANLEY.** Deep coral-rose on the outside of the broad petals, pale flesh on the inside, with well-shaped buds which develop into fragrant blooms.
- LADY ASHTOWN.** Pale crimson-pink, shading to golden yellow at the base of the petals.
- LOS ANGELES.** Awarded world's highest Rose honor at Paris in 1918. Color indescribable—flame-pink, apricot, salmon, gold, mingled in an informal flower of notable fragrance; buds exquisite.
- MME. BUTTERFLY.** Flowers are a brilliant pink, suffused apricot and gold.
- MME. CAROLINE TESTOUT.** Broad petals of satiny rose make up the large, rounded flower, shaded darker at the center and lighter at the edges.
- MME. EDOUARD HERRIOT.** Its coral-red buds develop into flowers of the same hue, shaded yellow to scarlet.
- MME. JULES BOUCHE.** A most dependable white Rose, its lovely buds being tinted and flushed pink at times.
- MRS. AARON WARD.** A Rose of pleasing surprises because of its color variations, all based on its normal, deep Indian-yellow hue.
- MRS. AMBROSE RICARDO.** Large blooms of fine substance, deep yellow overlaid with a lighter color and suffused in pink.

PLANTNURSE

Peatmoss Manure Pot

Use the Peatmoss Manure Pot—"Plantnurse"—for Young Plants

The Plantnurse Pot does just what its name implies. It nurses and nourishes the young plants that are entrusted to its care. When put into the soil it absorbs nine times its own weight of moisture, thus releasing the plant nourishing substances which the Plantnurse Pot contains, thus feeding the young plant in a most practical and easy manner. It gives the plant strength and protects the young roots. In a few weeks the roots will have grown through the Plantnurse Pot and a short time later you will find that the roots and the Plantnurse Pot are one solid ball, ready to plant out without any checking of growth.

PLANTNURSE POTS—*Continued*

The Plantnurse is made from peatmoss and manure and is not only a pot but a manure for the young plant.

It should be used for all Flowering Plants and also for vegetables like Tomatoes, Cauliflowers, Cucumbers, Melons, Beans, Lettuce, etc.

Vegetables will be ready for the garden four weeks sooner with the Plantnurse Pot than without it.

Plants raised in Plantnurse Pots can be shipped without danger. The roots are so well protected that they cannot be damaged. The plant will be nourished during shipment.

All pots are packed in cases and bedded in fine granulated peatmoss which assures safe arrival. The peatmoss itself can be used to good advantage.

It can be safely said that wonderful results may be obtained with all kinds of vegetables and flowers by use of the Plantnurse Pot. We recommend a special pot without lime for Azaleas, Rododendrons and Cyclamen.

A special pamphlet will be sent to those interested, along with prices.

SUMMERS
GENUINE VENEZUELAN
GOAT MANURE

"The Natural Complete Fertilizer for all Crops"

By chemical analysis, its average composition shows 2½% Ammonia, 2% Phosphoric Acid, available, and 3% to 4% Potash, all on a dry basis. But, in addition to this relatively high plant food content, it has, because of its general constituency, an added value as a soil builder.

CONTAINS NO REFUSE

Venezuelan Goat Manure is free from all refuse, such as straw, weeds and seeds. It is taken into Summers large Baltimore factory, stored in huge piles, for further drying, and later screened, ground and bagged, ready for immediate use.

The plant food is quickly available and because it contains all three elements of Nitrogen, Phosphorous and Potash, it offers an available, balanced plant ration throughout the growing season. It should be applied at the rate of one thousand pounds, to a ton, per acre, depending on the general state of fertility of your land. There is no danger of "Burning" or injury to seed.

We have many testimonials on file from private and commercial growers in the state of Ohio stating the worth of "Summers Venezuelan Goat Manure" and their satisfaction over results gained from its use. We will be glad to give further data on this wonderful Fertilizer.

Price per 100 lb. Bags F. O. B. our warehouse \$4.50. Per ton \$80.00. Price F. O. B. Baltimore \$70.00 per ton.
